Sunscreen - Application Release (all ages)

- We prefer spray-on sunscreen, as opposed to lotions.
- For the health and safety of the children, we reserve the right to keep children out of the sun if a parent does not provide sunscreen – which means they may ultimately not participate in outdoor activities.
- Likewise, we may not be held responsible for sun-damaged skin if the supplied sunscreen doesn't provide adequate protection or if no sunscreen is supplied.
- Be sure to clearly label sunscreen with your child's name in a manner that will sustain its longevity during repeat usage.
- Sunscreen will be applied on all appropriate days while your child is in our care.
- Sunscreen will not be used if it is beyond its expiration date.

NOTE: Due to health and safety risks, we will not provide sunscreen to children who do not have sunscreen.

If a child does not have sunscreen the child may be kept from outdoor activities.

If a child does go outdoors without sunscreen, we may not be held responsible for sun-damaged skin.

- I give GraceWay Children Academy permission to apply sunscreen, provided by the parent, to your child when necessary by means of rubbing it on, spraying it on, or supervising a child applying it to themselves (only school-age children are permitted to apply their own sunscreen).

Diaper Rash Cream - Application Release (Infants through Older Toddlers only)

Diaper rash cream is applied only as needed while your child is in our care.

NOTE: Due to health and safety risks, we will not provide ointment/cream to children without.

- I give GraceWay Children Academy permission to apply over-the-counter non-prescription diaper rash cream/ointment, provided by the parent, to your child when necessary by means of rubbing it on.

Child's name: _____

Parent's name: _____ Date: _____

Parent's signature: _____
